Opinions expressed in letters to the Editor are not those of this paper, and we assume no responsibility for them. Brevity is desired. All letters MUST be bona fide, and signed by the writer, not necessarily for publication. We reserve the right to reject any letter sent in. Opinions of readers are welcomed.

### SOLDIER SETTLEMENT UNION

Dear Sir—At the recent convention of the S.S.U. held in Edmonton, many important decisions were reached, affecting Soldier Settlers and Empire Settlers. Tentative arrangements were also made for an inter-provincial conference on soldier settler matters, prior to making representations to the Federal government.

The local Union is meeting on Saturday, March 14, in Lacombe Town Hall at 2 p.m. All soldier settlers and Empire settlers in the district, whether members of the Union or not, are urged to be present with the importance of being present. Do not fail to come and try to help yourselves.

F. E. HEATH,  
Vice-President, Lacombe  
Local, S.S.U.

## Fairview

The "Baby Band" had its first meeting at the home of Mrs. R. L. Rolands. The next will take place at Mrs. Z. Ogilvie's on March 12 for the purpose of raising funds to purchase literature for the children.

The Band was formed to take care of the little tots too young for the Mission Band.

The bean supper which was to have been given on Feb. 25 was postponed on account of cold weather to some time in March. Date will be announced later.

Spring Valley Minstrels will put on an entertainment at the Lincoln Hall next week.

Fairview residents will gather for the next singing at the home of Mrs. Fawcett Wednesday, March 11. Everybody is cordially invited to attend.

On Feb. 27 neighbors of Mr. Jack Schilling gathered at his home for a surprise farewell party. Enjoyable evening was spent by all.

Mr. McMahon moved to Stettler after his sale.

On Sunday, March 1, the minister of Fairview Church, Mr. Perrie commenced a series of Lenten sermons. If the remaining discourses are to be judged by the first, they will be well worth attending church to hear.

## Spring Valley

SPRING VALLEY.—The dance sponsored by the Ball Club, which was held in the Spring Valley Hall Friday, Feb. 28, was a startling success. Couples were in attendance from as far away as Stettler. Refreshments were served. Conga Minors' Orchestra supplied the music and a wonderful time was enjoyed by all.

Mrs. A. J. Caverhill entertained at a supper Friday evening for the Spring Valley Juveniles.

Mr. Gordon Call is now teaching grain in Lacombe.

Mr. George Robb, aided by Pat McKenna, is busy teaming bundles into Prentiss siding these days.

### SOCIAL CREDIT BY PICTURES

An illustrated lecture will be given by Mr. Clive Wilmont of Calgary under the auspices of the Ladies Social Credit Group of Lacombe in the Church Hall, Thursday evening, March 12, at 8 p.m. Admission: Adults 25c, children 10c.

APPOINTED JUDGE

## Charles Abbott, Prominent Farmer Dies Suddenly

PROMINENT IN LACOMBE U.F.A. AND AGRICULTURAL AND SOCIAL INTERESTS.

The entire community was shocked to learn of the sudden death Tuesday evening of Charles R. Abbott, prominent farmer residing about six miles southeast of Lacombe. Mr. Abbott, who would have reached his sixtieth year June 29 this year, was born near Hamilton, Iowa. He married Miss Alice Van Buskirk at Alta, Iowa, on Oct. 4, 1900, and they moved to Lacombe in 1909. For years Mr. Abbott has taken a prominent part in the U.F.A., in the new feeder industry and other agricultural and social interests, and took an active part in provincial politics. He was supervising the repairing of the pumping system about 6 p.m. Tuesday when he collapsed from a heart attack.

W. R. HOSWON, K.C.  
Alberta Liberal leader, whose appointment to the Supreme Court has been confirmed by Prime Minister Mackenzie King.

## Flax Will Prove A Profitable Crop On Park Belt Farm

While farmers practically all over the prairie provinces are still concentrating on wheat, despite their inability to secure a reasonable price for it, there is one class of crop for which the demand is much greater than the supply, and for which a constant market is assured, as its products are required in the manufacture of textiles, live stock feeds, tonics, medicaments, paint and many other products. This crop is flax.

Early maturing varieties of flax have been successfully grown for a number of years at the Dominion Experimental Station, Lacombe. The only apparent reasons for its not being grown to any extent in Central Alberta are that suitable varieties were not formerly available and that while flax is an old acquaintance of a few farmers it is absolutely new to the majority.

On the whole, northern-grown flax is of higher quality than that grown farther south. The introduction of new early-maturing varieties gives farmers of Central Alberta an opportunity to replace low priced wheat with high priced flax—at a profit.

At Lacombe, flax will yield from 15 to 20 bushels per acre. When this yield is considered in conjunction with the current price of flax—and the fact that the market would indicate that another million bushels annually are required in Canada alone—it would seem quite safe to suggest that for the next few years, at least, flax should prove one of the most profitable of farm crops.

With any new crop, it is wise to start in a small way in order to learn how to handle it before undertaking its production on any large scale. This is particularly true of flax.

The Dominion Experimental Station, Lacombe, hasn't any flax seed for distribution; however, dependable seed may be secured from any established seed house.

A further article, dealing with the merits of the different varieties and describing the best cultural methods of flax, will appear in an early edition of the Western Globe.

### TESTING PIGS

Pigs for test under Advanced Registry for Swine were received at the Dominion Experimental Station at Charlottetown, P.E.I., from 20 breeders. Of the pigs tested, 73 per cent graded select and 54 per cent of the dams qualified for Advanced Registry.

### FORAGE CROP

Encouraging results have been obtained from the forage crop breeding work at the Dominion Experimental Farm at Brandon, Man. There are 229 varieties and strains on test in the forage crop nursery.

## RETURNS FROM EASTERN TRIP

After an extended trip East, where he visited Halifax, Boston, Toronto and Montreal, Perry W. Pratt returned to Lacombe on Sunday last. Speaking of his visit, Mr. Pratt said he found considerable interest manifested regarding Alberta's experience in politics, and they were eagerly awaiting the outcome—all eyes appeared to be turned to the province. Business men were optimistic regarding business conditions, the general impression being that they were definitely on the upturn, especially in the lumber and mining industries, which were working steadily, although competition was very keen. He was greatly interested in the Halifax waterfront, where many large vessels were in port, one he saw being loaded with a shipment of Canadian oats bound for Bermuda.

During his visit, Mr. Pratt saw two professional hockey games, one in Boston and the other in Toronto. Toronto Maple Leafs caught his fancy, as they play a fast and wide open game from start to finish. Mr. Pratt was away for seven weeks, it being his first trip East in six years.

## Morningside "Good Cheer Club" Hold Enjoyable Party

MORNINGSIDE.—Owing to the severity of the weather, quite a number of the members of the Morningside "Good Cheer Club" were unable to attend the meeting which was held at the home of Mrs. Ferris Clements last Friday afternoon. However, 19 members and visitors turned out and an exceptionally pleasant time was enjoyed by all. The president, Mrs. Clements, presided. Meeting opened by all singing "O Canada".

Read and approved. Roll call was answered by a suggestion on "How to make our club a going concern."

After commencing with a song, a baby shower was tendered Lorna Carter, infant daughter of Mr. and Mrs. E. A. Carr and the presentation of a nice quilt was made to Mrs. Leslie Taylor, a recent bride.

Dainty refreshments were served. Miss Anne Zach, assisting the hostess. The March meeting will be held at the home of Mrs. N. W. Zach. Under the auspices of the Good Cheer Club a whist drive will be held in the schoolhouse Friday evening, March 13. Bring your extra nickels along, as there will be some first-class home-made candy on sale.

## Fruit Canning Important Industry Of Australia

Fruit canning is now one of Australia's important industries, canneries being located in each of the states, according to the minister of one of the Canadian National Steamships freighters in the Canada-Australia-New Zealand service. The principal fruits canned are apples, pears, peaches and pineapples. The main production is centered in the irrigation areas of Victoria and New South Wales. The fruit canning industry of Australia has had a remarkable rise. Twenty-five years ago the production of canned fruits was almost non-existent. For the year to the end of June, 1934, the value of canned fruit exports from Australia amounted to, roughly, \$4,770,565.

### TO ENCOURAGE WHEAT CONSUMPTION

For the purpose of increasing the per capita consumption of wheat products in the United States by improving the quality of flour and bread sold to domestic consumers, The Northwestern Miller suggests that low-grade flour should be taxed in order that the sale of higher grades or patent flour should be encouraged. This scheme would force low-grade flours into export channels, it is contended, and the scheme would increase the amount of wheat required for flour making from 450,000,000 to 550,000,000 bushels annually. By this method, together with the 42c duty on imports, United States prices could be maintained at a figure substantially above world price levels.

### R.O.P. FOR POULTRY

Entrants in Record of Performance for Poultry in Canada for the current year 1936 are now open. With 35,594 birds. This is the largest entry to date in Record of Performance and shows an increase over 1934-35 of 25 entrants and 4345 birds. Further information may be obtained from the Poultry Services, Live Stock Branch, Dominion Department of Agriculture, Ottawa.

## Spruceville

SPRUCVILLE.—Friday night, March 13, Mr. Wilson of the Experimental farm will give a lecture on livestock in the Spruceville hall. There will be lantern slides and it should be of great interest to all stockmen in the district.

On the same night the Junior and Senior U.F.A. will meet in a debate "Rescues in life to be derived from country life than from city life."

The ladies of the district are holding their postponed Leap Year Dance in the hall on St. Patrick's night, March 17, and promise a good time.

The U.F.W.A. meeting had to be postponed owing to the U.F.A. wanting a joint meeting. The program of the men have taken in a very fine and instructive one. The ladies hope to hold their meeting Tuesday afternoon, March 16, at Mrs. Proudfoot's, with the program already published. A large attendance is expected.

## Highlights of Budget

New taxes created.  
Social Service Tax instituted.  
Sales Tax brought in.  
Income Tax schedules raised.  
Annual Drivers Licenses required.

Fuel oil and gas taxation increased.  
To build \$100,000 addition to Oliver hospital.

Government absorbs cost of tuberculosis patients.  
Government assumes 75 per cent cost of mothers' Allowance instead of 50 per cent.

Cost of unemployed relief to be absorbed by current instead of capital account.

Surplus of \$31,222.43 estimated for coming fiscal year.

Old age pensions to cost \$40,000 more this year.

Mothers' allowance to cost \$70,000 more this year.

Wild Lands Tax abolished.  
Total estimated revenue shows increase of \$3,268,618.75 over the revenue of current fiscal year.

## World's Largest Piano Used By B.B.C.

What is probably the largest piano in the world is the one used recently in a broadcast over BBC in England. The piano is eleven feet eight inches long, weighs about a ton and the combined tensile stress of the strings amounts to over thirty tons.

Just in case you don't know, as ordinary concert grand measures nine feet six inches and a baby grand four feet three inches.

## Mrs. MacMillan Heads Women's S.C. Group

Mrs. Bruce MacMillan was elected president of the Women's Social Credit Group, when they held their annual meeting and election of officers on Thursday, Feb. 27. Vice-president is Mrs. William Grams and secretary-treasurer, Mrs. W. J. Trot.

Attendance at the group's regular meetings has been good, all members showing a sustained interest in the studies and work. Considerable relief work has been done by the group during the fall and winter months and a large number of children assisted with clothing.

Considerable progress has been made in the breeding project for the development of Corriedale sheep at the Dominion Experimental Station at Lethbridge, Alta. The work has been under way for a number of years.

## Regular Meeting Of S.C. Group No. 1

Lacombe Social Credit Group No. 1 will hold its regular meeting in the Town Hall, March 9, at 8 o'clock. A full attendance is requested. Rev. T. Chapman will be the speaker.

## AUCTION SALES

C. F. Dameron today conducted a successful auction for Fred Read at his farm, four miles north of Bentley. On Monday he will be at the farm of Ray Van Loan, two miles north of Rimbey, and the following day at Mike Trencamp's, 2 1/2 miles northeast of Lacombe.

March 11, he will conduct the Horse Sale at the Experimental Station.

## Entries For Horse Sale Arriving Daily

The entries for the Horse Sale are increasing daily, according to Secretary Jesse Fraser, and he expects to have 250 head of horses when C. F. Dameron calls for the opening bid next Thursday, Mar. 11. Holding the Sale in the new Sales Pavilion at the Experimental Station, entries will be heated for the occasion, is proving an added attraction for this annual event.

Enquiries regarding the sale have been received from the neighboring provinces and the Western States, one being received from Hartford, Connecticut.

Indications point to a larger crowd than heretofore, with every prospect of it being the most successful since its inception 27 years ago.

## Temperatures

## Cattle Breeders Recognize Value Of Sales Pavilion

At a recent meeting of the Central Alberta Cattle Breeders' Association, the following resolution was passed unanimously:

"That the secretary-treasurer of this association convey to the Honorable R. B. Bennett, former Prime Minister of Canada; William Irvine, ex-M.P. for Wetaskiwin, and the Deputy Minister of Agriculture at Ottawa, their appreciation and thanks for the recognition that has been shown not only to this association but to other livestock associations and agricultural activities generally in Central Alberta, by erection of the new sales pavilion at Lacombe, which is also capable of being used for community purposes by the people of this part of the province."

Remittances have been received by the recipients, expressing their gratification on being singled out for recognition by the association.

## I.O.D.E. Chapter Hear Mrs. Colin Campbell

Mrs. Colin Campbell, who is a prominent member of the Municipal Chapter, I.O.D.E., Winnipeg, also of the National branch of the order, addressed the members of the Lord Lascelles Chapter, I.O.D.E., at the home of Mrs. Watson Clark on Monday evening, March 12. Mrs. Campbell, who was much appreciated by those present. Lunch was served and a hearty vote of thanks extended to the speaker of the evening.

## Around The Town

B. Butcher reports he is pleased to see the mild weather as the lambing season has already started on his farm and his flocks are increasing daily.

Taking advantage of the adjournment of the Legislature, Bruce D. MacMillan, M.L.A., spent a few days at home with his family last weekend.

Mr. and Mrs. A. D. MacDonald have as their guest for a few days Mrs. Colin Campbell of Winnipeg.

Mrs. J. H. W. Moore was a weekend visitor in Edmonton.

Mrs. J. S. McCormick entertained informally at bridge Tuesday and Wednesday evenings of this week.

Mrs. Ernest Ulmer of Monitor is visiting at the home of Mr. and Mrs. S. English.

The regular meeting of the Women's Institute will be held next Saturday, March 7, in the I.O.O.F. Hall. Dr. Little will be the guest speaker. Committee: Mrs. H. Reid, Miss Maxine Fitzpatrick.

An indication that Spring is not far off, is the new car sales made by Laird Motors recently. Cecil Suggitt, Bentley, purchased a new 1936 Oldsmobile. Dr. Locke and Gene Wright a new 1936 Chevrolet each, and E. T. Choyen a new 1936 Chevrolet Master Sedan.

F. G. Robinson was a business visitor to Red Deer this week.

Mrs. Morrison and small daughter of Wetaskiwin are visiting with Mr. and Mrs. C. Graham.

Mrs. M. P. Fitzpatrick is visiting her daughter, Mrs. D. S. Orton, in Pickardville.

Mrs. J. Edgington and Mrs. C. Graham have left for Edmonton as delegates of W.M.S.

Murray McLeod has left for the East.

Harry Hudspeth is seriously ill at the Lacombe Hospital and is being attended by Dr. Hynes.

Miss Viola Russell, Haynes, has returned home fully recovered after an operation for appendicitis at the Lacombe Hospital.

On his way to Vancouver, Percy E. Reed, Dairy Commissioner for Saskatchewan, visited his brother, F. H. Reed, Experimental Station, on Sunday last.

Mr. and Mrs. Fred Ramsay, who have been wintering in California, are returning to Lacombe about April 1. After spending a short holiday in Hollywood, they will stay at Forest Grove, Ore., and Walla, Walla, Wash., guests of Mrs. Ramsay's sister.

## Social Credit Government Presents First Budget

HON. CHARLES COCKROFT  
Provincial Treasurer, who presented the budget to the Alberta Legislature.

### NEW TAXATION PROVIDED FOR INCREASE IN INCOME TAX, SALES TAX; TO BE LEVIED ON ULTIMATE CONSUMER.

By T. B. WINDROSS  
EDMONTON, Alta.—This week the big event of the legislature took place Monday, when Hon. Charles Cockcroft, provincial treasurer, presented his budget to the House in a speech which had many notable features. The budget is remarkable in that for the first time for some years, the provincial treasurer has budgeted for a surplus, stated in the estimates as \$34,222, after transferring from capital account to the current account expenditures for direct relief, estimated at \$1,497,666, and the provision of \$713,453 for the sinking fund.

Mr. Cockcroft explained that it was considered the income account was the proper place for the above items and not capital account.

An interesting and important feature of the budget is its provision for the care by the government of free treatment for all tuberculous patients in the province in the interests of the health of the citizens, and for expenditure of \$100,000 to provide additional accommodation for these patients in the already established hospitals.

Municipalities will also be interested in the plan to carry 25 per cent of the 50 per cent of relief costs now borne by the cities, thus reducing their burden from 50 to 25 per cent.

New taxation is provided for in an increase in the income tax to bring it into line with other provinces. This is estimated to yield an increase in revenue. The estimated revenue from this tax is \$1,200,000 as compared with \$650,000 last year.

A sales tax will be levied on the ultimate purchasers of commodities from which the gross revenue is estimated at \$2,000,000. A social service tax is to replace the supplementary revenues tax, with an added estimated revenue of \$323,000, or a total of \$1,223,000.

An increased subsidy payment from the Dominion of \$243,900 is based on the increase of the population to over 800,000 expected to be shown in the quinquennial census to be taken this year; and an estimated increase in revenue of \$500,000 from the Liquor Board taking over the distribution of beer, and also from (Continued on Page Five)

MADE IN CANADA

## WORLD HAPPENINGS BRIEFLY TOLD

A squadron of British seaplanes paid a "good will" visit to Japan, the first ever paid by British military planes to that country.

A recent issue of the Canada Gazette contains notice that new post offices have been opened at Cookson and Kettlehead, Sask.

A statement published by the German ministry of justice made clear that only Nazis will be admitted to the bar in the future.

K. J. Burns has been appointed manager of the port of Vancouver, Hon. C. D. Howe, minister of railways and marine, announced.

The Canada Gazette gives notice that the government has authorized under the Relief Act of 1935 a grant of \$20,000 to permit continuation of a relief project at Stanley park, outside Vancouver.

A steady decline in prison population in Canada was shown in the annual report of the superintendent of penitentiaries tabled in the House by the minister of justice, Ernest Lapointe, minister of justice.

Reduction of the United States tariff has resulted in placing of orders this month, through the Sea-board Lumber Sales Agency, for nearly 15,000,000 feet of British Columbia lumber for the eastern United States ports, it was revealed.

Hardy fisher folk of St. Malo, France, set sail Feb. 10 for their annual fishing expedition to the banks off Newfoundland and Greenland. The traditional ceremony of blessing the crews and ships of the fishing fleet took place.

Unpaid arrears of Alberta school districts in default at the end of last year amounted to \$187,301, according to the annual report of the public utilities commission which has been tabled in the legislature. Payments of arrears amounted to \$99,244.

### Return of Glacial Age

Sees Possibility If Mean Annual Temperature Should Drop  
Probably scowling influenced in his outlook by the fact the mercury had dropped in Saskatoon to low depths, Dr. J. B. Mawdsley, of the University of Saskatchewan, and recently elected fellow of the Geographical Society of America, in an address before the Saskatoon Archaeological Society, stated that if the mean annual temperature of North America fell nine degrees the glacial ages which covered this continent with ice thousands of feet thick would return. An increase in precipitation could have the same effect, Dr. Mawdsley declared.

Dr. Mawdsley said the coming of man to North America probably happened about 20,000 years ago when a land bridge connected Asia and Alaska.

Temple Viper For London Zoo  
A temple viper, a reptile which for 3,000 years has been worshipped by man from sheer fear—has arrived at the London Zoo from the Malay States. In the jungle temples are dedicated to the worship of this viper. It will kill a man in half an hour, and science knows no cure.

### Cannot Keep Pace

Nervous System Breaking Under Speed of Modern Life  
Speaking to the Women's Canadian Club of Bowmanville, Dr. Montgomery, director of the Ontario Hospital of Whitby, said that 50 per cent. of those suffering from mental disease are victims of the excessive stress the modern civilization entails on their child.

When we consider that about 2,000 new patients are admitted to Ontario mental hospitals every year and that many more are left to be cared for at home, we must realize that this is a serious situation. Admitting that we are living in an age when things unknown comparatively few years ago are now almost considered necessities, still we must ask whether the advance has been worth what it is costing. When we think of at least 1,000 a year brought down mentally by life stress and strain of present-day life, we are forced to conclude that we are paying too dearly for our advantages.

Contrast conditions of, say, 50 years ago with those of the present. The telephone was a novelty—more of a plaything than the indispensable article it is considered both in office and home—we had no motor cars, no aeroplanes, no radio, no electric lights, no oil-burning furnaces. If anyone wanted to go places he used a horse or took the train—and there were no stream-lined, 70-mile-an-hour trains. Thirty was a good average speed.

Now everything is labor-saving and speed. No longer is anyone content to wait while a correspondent in Vancouver or London, England, answers a letter—he is called on the telephone. By air San Francisco is no farther away from Owen Sound now than Montreal was by train a few years ago. It's all speed—speed and more speed.

The whole trouble is that our nervous systems have not kept pace with the advancement of science. We are not built to travel at the rate we must. If we are to keep up with the times, and we must for competition has increased, the tempo of business and social life has been speeded up, and between the strain of trying to force a 10-mile-an-hour body to travel 60 or 70 and worry over whether it is too impossible, it is no wonder that mind gives way.

Is the game worth the candle? Manifestly not; but—there is always that "but". What to do about it? Nobody knows. It is all very well to tell people to take it easy; but how many will?

Still, it is something that deserves serious thought. The whole fate of the country depends on devising some way to make people go a little slower and thereby stop the increase of mental disease at the rate of 2,000 a year in Ontario alone.—Owen Sound Sun-Times.

### Public Liked New Pens

Idea Tried By British Post Office Did Not Work  
Pen pilfering is to be stopped in Great Britain's post office. In an effort to end the jokes so long associated with post office pens, Great Britain's General Post Office recently issued experimentally, to selected branches throughout the country, 10,000 de luxe pens of a new model, gracefully shaped, colored, and engraved and emblazoned with the initials, "G.P.O." How well the public took to the pens was indicated by the revelation in the G.P.O. report, that at first their average "life," before they were stolen, was four weeks at London, three weeks at Glasgow, and a fortnight at Edinburgh. At Newcastle-on-Tyne the pens lasted somewhat longer, because there they were chained, but one thief took both chain and pen.

Followed Her Master  
Spaniel Which Was King George's Inseparable Companion Is Dead  
Sandringham Spaniel is dead. She was a Clumber Spaniel, who had been for years the inseparable companion of King George on his walks along the Norfolk lanes. When he went out on shooting parties, she went, too, and her royal master became so proud of her that he boasted to his friends that she was "a dog that never blundered." When his late Majesty's body was removed from Sandringham, Susan fell ill. Veterinarians could do nothing for her. And so she followed her master.

Make Your Opportunity  
Waiting For Something To Turn Up In Foolish  
If you want to succeed in the world you must make your own opportunities as you go on. The man who waits for some seventh wave to toss him on dry land will find that the seventh wave is a long time coming. You can commit no greater folly than to sit by the roadside until some one comes along and invites you to ride with him to wealth or influence.

The leguany was given to the world by bees, which produced it by cross-fertilizing raspberries and blackberries.

All Balfans have eyes that migrate from one side of the head to the other.

### Important Engine Tests

Canard White Star Superliner "Queen Mary" Subjected To Rigorous Inspection  
Preparations are being completed for the important engine tests to which the new Canard White Star superliner "Queen Mary" will be subjected before she leaves the basin of John Brown's shipyard, Clydebank, Scotland.

The rigid task of inspection, under the joint supervision of company and shipyard experts, is expected to occupy several weeks, although preliminary surveys have already been carried out. The four 35-ton propellers have already been temporarily disconnected from their 227-foot long shaftings, and furnaces and boilers lighted, but every particle of the ship's machinery will undergo minute and severe tests in the yards before the actual speed trials, which will take place beyond the Head of Arran, in the Firth of Clyde. Prior to proceeding on her speed trials the "Queen Mary" will leave Clydebank about March 24 next and proceed to Southampton where she will enter the new Southampton drydock to be prepared for the trials some weeks later.

The speed trials of the "Queen Mary" will be conducted with the utmost secrecy. Not a single soul of 500 carried aboard, except Sir Edgar Britten, the commander, will know just when the tests have actually begun or ended.

During the speed trials messages will be exchanged between the commander and the engine room in code instead of by telephone, giving Sir Edgar Britten, the commander, the details of the vessel's speed and behavior. These messages will be recorded in cipher on perforated tape, similar to quotations on a stock ticker.

For fear that the superliner may swamp yachts and houses on shore during these special manoeuvres, the speed trials of the "Queen Mary" will be carried out beyond the Heads of Arran in the Firth of Clyde instead of over the usual measured mile at Shetland, off the Ayrshire coast, or in Wemyss Bay.

"Queen Mary" will speed over her trial course 25 times, anchoring at night off the Tail of the Bank. Later, on leaving the Clyde, three further tests will be carried out. Stern tests to ascertain the ship's speed while going hard astern will be made off Largs End when sailing to Southampton. Manoeuvring trials will then be carried out to find the area required and the time the liner will take to turn completely round. Later there will be consumption trials in the Atlantic to discover the oil fuel consumption per 24-hour period.

The world's fastest engine tests will be carried out in the Firth of Clyde, off the Tail of the Bank. Later, on leaving the Clyde, three further tests will be carried out. Stern tests to ascertain the ship's speed while going hard astern will be made off Largs End when sailing to Southampton. Manoeuvring trials will then be carried out to find the area required and the time the liner will take to turn completely round. Senate To Co-operate  
Rt. Hon. Arthur Meighen Says Both Parties Will Work For The Good Of Canada  
Conservative members of the senate, now in a majority in the upper house, will not employ their numbers to the embarrassment of the government minority, but will co-operate sincerely, diligently and without prejudice in reviewing legislation. This was the assurance given to Senator Raoul Dandurand, government house leader, by Rt. Hon. Arthur Meighen, Conservative leader, in the senate.

In the past five years the Liberal senators had worked earnestly and helpfully with their Conservative colleagues. The latter were now in a position where they could reciprocate and Senator Meighen assured Senator Dandurand that this assistance would be forthcoming.

He believed all members of the upper house appreciated the necessity of co-operating for the good of Canada and was confident the senate's deliberations would redound to the credit of parliament and the country.

Mr. Meighen's observations came at the close of a brief speech he delivered in the debate on the address in reply to the speech from the throne.

### Famous Canal For Sale

Purpose Years Ago Was To Halt French Army  
The Royal Military Canal, which was to have stopped Napoleon, has been put up for sale in Ashford, England. The once important waterway consists of eight and one-quarter miles of canal, six bridges and station houses, and land on each side. It stretches from Shorncliffe to Fife, and its main purpose was to stop Romney Marshes and hold up an invading French army. But the canal was never put to its intended use, and several years ago the British War Office sold seven miles of it. Recently it has been the peaceful haunt of anglers, and its banks are offered as grazing land.

Keeps Him Busy  
Hungarian Farmer Has Been Best Man At 1,574 Weddings  
The world's busiest best man has come to light when a 60-year-old farmer of Szeged, Hungary, claims to hold the world's record. He has acted that office at 1,574 weddings, and is still in great demand. His "qualifications," which lead to his popularity, are that he invariably composed a special poem in honor of the bride and bridegroom, and that he knows every one of Hungary's 1,000 different folk dances.

May Not Depict Victoria  
English Producer Was Fined For Showing Late Queen  
Queen Victoria may not appear as a character on the stage or in a movie in England. The ban was re-imposed in the police court at Bath when Miss Connelley de Reyes King was fined \$50 and \$30 costs for presenting a play, "Vickie, The Widowhood of a Queen," at a local theatre.

An Old Saying  
"Take it for what it is worth, there is an old saying in the northwest that a hard winter forebodes a good crop in the season to follow. Proving it statistically might be difficult, but many old timers go by it. At least it suggests well for spring soil-moisture to have the ground freeze deep in winter."

A Russian sculptor is designing a group representing Stone Age people of China 400,000 years ago.

Have You Stomach Upsets?  
IMPROVE your stomach and build up the blood with Dr. Pierce's Golden Medical Discovery. The entire system feels the beneficial effect. Your appetite increases, and you feel stronger.

Even the butterfly's enamoured of his little charmer's newly crocheted frock—a style that's winsome and dainty for lots of 4 to 10 easy to crochet, too, in a simple all-over pattern, topped by yoke of plain mesh which serves as sleeves and collar. Use white or colored string.

In patterned pattern 6533 you will find directions for making the dress shown in sizes 4, 6 and 8; illustrations of it and of all stitches used; material requirements.

To obtain this pattern send 20 cents in stamps or coin (not preferred) to Household Arts Dept., Winnipeg Newspaper Union, 175 McDermott Ave., E., Winnipeg.

### Sets Good Example

Aged Railway Worker Has Night Ideas About Relief  
An American railroad worker named Horan who is 98 years of age and still working, objected to his son, Ed, applying for an old age pension and declared that no boy of his is going on the country. He has offered to contribute to the support of the son.

Such rugged individuality is tremendously refreshing in these days when so many are looking to governments and philanthropic organizations for help. Nothing will bring Canada back to a position of real prosperity except the realization on the part of all the people that the old virtues of frugality and thrift are not outmoded but are as admirable and necessary to-day as they ever were. If everyone took the matter as seriously as Father Horan, who has worked as a railway boiler washer for 82 years, the unemployment relief funds of the country would be unbelievably reduced—Kingston Whig-Standard.

### Will Aid Night Flying

New Invention Will Enable Pilots To Find Way In The Dark  
British government experts are working on a "magic bottle" which will enable aviators to see where they are even when they are flying in dense fog or complete darkness. It was learned in London.

A radio direction finder in an airplane will pick up two broadcasting stations and by orientation determine a plane's position. In front of the pilot will be the "magic bottle"—a cathode ray tube such as is used in television. Over the tube the pilot will follow its course over the map of the district over which he is flying. Through the map will show a pinpoint of light on a fluorescent screen on the base of the tube. The light will be controlled by the direction finder. As the plane flies the light will follow its course over the map and the pilot will know where his plane is.

### Old Book Was Valuable

French Volume Given To Farm Hand  
Brings \$1,000  
George Menton, a farm hand living near Sunderland, Ontario, some years ago was given a French book by a former employer. Although it was seemingly valueless, as Mr. Menton was unable to read French, he kept the book for sentimental reasons.

Recently, a little short of money, he communicated with L. K. Winslow, a Toronto booksman. When he told the dealer what he had "Mr. Winslow told him he would be up to see him right away. The book is one of the only three known copies of L'Histoire des Familles de l'Eveille, which deals with an early Canadian nobility and is illustrated by the famous Paul Kane. Menton accepted an offer of \$1,000 for the work.

Gift For St. Dunstan's  
Ship's Steward Leaves Fortune He Accumulated In Tips  
The bulk of a fortune of about \$100,000, made out of "tips" to a ship's steward, now falls to St. Dunstan's, the institution for war-blinded soldiers, sailors and airmen. Richard Thomas Hughes of Kirkdale, Liverpool, who died at the age of 74, left an estate worth about \$137,000. Mr. Hughes left a life interest to a brother, who also recently died, and now, in accordance with the provisions of the will, \$100,000 has come to St. Dunstan's.

Thanked By Queen Mary  
Through Oliver Stanley, president of the London board of education, Queen Mary expressed her thanks for messages of sympathy sent to her on the occasion of the death of King George V. by children throughout the empire.

One much-relished Chinese dish is made partly of octopus.

Chinese Are Strict  
Broadcast Announcer Disciplined For Quoting From Banned Song  
His attempt to broadcast the meaning of love has brought severe reprimand for an announcer of the Central Broadcasting Station in Nanking, China. While trying to clarify before the microphone his meaning of love the man quoted from a banned song hit. Next day he was notified that his action "impaired the dignity of the station" and that he would be disciplined.

Find Ancient Documents  
The United States Cold expedition, associated with the British School of Archaeology, has reported the discovery of 37 papyrus at Ajaja Aihafair near Beersheva. The earliest papyrus is dated 565, the first year of the reign of Emperor Justin II, of the eastern Roman empire. The latest are dated during the eighth century.

France imports five hundred tons of snails and frog legs a year from Germany.

After all, you bake for nourishment! Purity Flour—rich in gluten—has more "life" and nutrition. It also imparts that fine, tasty flavor which will make all your baking delightful.

### And the other needle said—

\$500.00 in prizes for the best answers

I'm disgusted / This thread breaks with nearly every pull!

272 PRIZES in CASH and MERCHANDISE  
2 PRIZES OF \$50.00 EACH  
10 PRIZES OF \$10.00 EACH  
250 FANCY SEWING BOXES  
and containing an assortment of Coats' and Clark's Threads.

If you sew, you'll know! Get an entry blank from your favourite store and jot down on it what you think the other needle would say if Coats' and Clark's 6 cord Spool Cotton... so firm and dependable, no matter how fine in size—so strong and smooth and even. There are 272 chances for YOU to WIN. Send in your entry. YOU may be one of the lucky winners.

The 5 Standards of Excellence  
1. In COATS' and CLARK'S 6 CORD SPOOL COTTON, 6 Cord Cable Construction makes every thread, however fine, firm and dependable.  
2. Strength that holds seams secure through years of use and laundering. There is no starch coating to give only temporary strength which vanishes in washing.  
3. Smoothness to withstand friction of machine and hand sewing.  
4. Elasticity to provide seams that will not break or pucker.  
5. Evenness which permits easy, rapid movement through the eye of the needle under tension.

Lunch Service For Coach Passengers  
Restaurant Service On C.P.R. Lines  
At Nominal Prices  
The institution of a restaurant lunch service at nominal prices for passengers in day coaches and tourist cars on the company's fast transcontinental trains "The Dominion" between Toronto, Winnipeg and Vancouver has been announced by Passenger Traffic Department.

Superannuation Fund  
Civil Service Fund Shown To Have Large Balance  
The civil service superannuation fund had a balance of \$46,654,000 on March 31, 1935, according to the annual report tabled in the House of Commons. For the fiscal year the contributions and interest amounted to \$5,833,142. Annuities paid out amounted to \$3,178,715, gratuities \$69,000 and withdrawals \$79,000.

The civil service insurance fund carried 8,646 policies for a total of \$25,672,579 at an annual premium totalling \$435,522. On March 31, the fund stood at \$9,435,319 and \$168,980 had been paid in death claims during the year.

Should Be Used More  
Toxoid Against Disease Is One Of Greatest Life Savers  
Pictures were shown of the Dionne quintuplets being toxoided (immunized) against diphtheria. Immediately there was a noticeable increase in the rate at which other children presented themselves for immunization. Parents concluded, apparently, that if toxoiding is considered the right thing for the five children who are getting the most careful upbringing of any children in Canada, it must be all right for others. And so it is. It is one of the greatest life-savers ever placed at the disposal of the public.—Toronto Star.

Dionne Quintuplets  
Playground For Noted Sisters To Be Prepared This Year  
The Ontario government plans to arrange tourist accommodations and a recreational park for visiting children near the Dionne quintuplets' hospital at Calander, Ont. Dr. Allan Roy Dafoe, physician to the famous baby girls, said a few days ago he expects 500,000 people to visit the quintuplets this year.

It is understood a small woods behind the hospital will be made into a private playground for the Dionne sisters, said to be outgrowing play in the hospital.

Teacher—"Willie! Define the word puncture."  
Willie—"A puncture is a little hole in a tire, usually found a great distance from a garage."

Rate cause an annual damage of \$6,000,000 in Chicago, according to estimates.

## ROYAL YEAST CAKES Keep Full Strength

### RAISIN BREAD

### SANDWICH ROLLS

### APPLE CAKE

Use Royal Yeast Cakes and Royal Sponge Recipes for these good breads...

These famous dry yeast cakes assure perfect leavening. Fine quality is one reason... careful packing is another. Every Royal Yeast Cake is separately wrapped. Air-tight—it keeps fresh. No other dry yeast has this protection. The standard for over 50 years, Royal Yeast Cakes are now preferred by 7 out of 8 Canadian women who use dry yeast. Order a package.

### The Coronation Crown

Has Been Used For All British Monarchs Since 1662 To be re-shaped to fit King Edward VIII, the crown of King Edward the Confessor has been taken from the Tower of London and will be kept under heavy guard while a London firm works on it.

Made in 1662 for the coronation of Charles II, this crown is the one used for the coronation of all British monarchs since then. The imperial state crown, which rested on King George's head as he lay in state, was made for Queen Victoria. Even though the crown of King Edward the Confessor is made into a perfect fit, it is so heavy that it can rest on the head of the King for only a few minutes during the services in Westminster Abbey.

**YOU CAN'T BE CARELESS WITH COLDS**

A cold is an internal infection. Common sense dictates that you take the medicine that is most effective. There is nothing better than Grover's. Grover's Cough Syrup is the most effective. It soothes the inflamed throat, loosens the phlegm, and relieves the irritation. It is a safe, reliable remedy for all colds, coughs, and sore throats. Buy Grover's at your nearest drug store. It's in a white box.

**Grover's Cough Syrup**  
BROMO QUININE

## FLEMING'S FOLLY

—BY—  
LAWRENCE A. KRATING

### SYNOPSIS

The story opens with Link Fleming, a young man, attending a meeting of Boone County cattlemen, called together with the object of forming an irrigation company. Roger Kilgo, the boss of the Rawhide and nearby ranges, who seemed to approve the plan, but was really opposed to it, had forced Soak Turney, a derelict mining engineer, whom Kilgo knew would be called upon to give his expert opinion in favor of the scheme, to reverse his earlier endorsement, and declare that irrigation in Boone county was only a new-fangled way to waste money.

The meeting terminates, but Buzz Hamilton and his sister, Helen, Link and Kilgo stay behind and Helen asks Fleming questions about his irrigation plan. This angers Buzz, who accuses Fleming of trying to influence his sister and, as he asserts, ruin his "spread." Buzz shoots at Fleming, in an unaccountable fit of anger, but Buster Townsend, Link's foreman, is shot in the stomach, and Fleming is injured. Buzz is arrested and sentenced to three years imprisonment.

Helen and Fleming form a partnership to provide irrigation for their own properties.

Fleming goes home and studies the plans drawn by Turney to learn whether they could be adapted to a smaller scheme suitable for his and Helen's land, and as satisfied it could be done. Feeling cold, he lights the fire and there is an explosion that wrecks the house, burns it, and the plans and renders Link unconscious. He is rescued from the blaze by an employee.

(Now Go On With The Story)

### CHAPTER VII—Continued

They turned to see a short man in a fur-collared overcoat pausing in the doorway. At recognition that he was a girl he quickly doffed his derby hat. The man was apple-faced with a long pointed nose and a sharp chin. He bowed gravely and came forward.

"You're Mr. Fleming, I guess? My name's C. I. V. Berrens. Traveling representative of the Western Improvement Company of Denver. I—er, heard about a project Mr. Fleming is interested in, and decided to come out to speak to him. I must have been the way when this—er, regrettable incident occurred. He stood beside the recumbent rancher. "Mighty sorry, mighty sorry," he stated in a low, peculiarly husky voice. "Mighty sorry indeed."

Link could not recall having seen the man before. Berrens drew up a stool and offered it to Helen. Then stooping to the ground he picked up the long pipe, apparently joining his fat little hand behind him. Rocking back and forth, heel-and-toe, he smiled again and shook his head.

"Er—I am not selling anything but ideas, possibly—only might say ideas, Mr. Fleming. So don't worry about that. Fact is, in your—ah, unfortunate condition of the moment you may, perchance be particularly amenable to my proposition."

Link's glance showed plain longing for the fellow to finish his speech. He had no visible effect on Mr. Berrens, however. Nodding and smiling from one to the other of them, and back again, he continued what sounded like a prepared speech.

"You are, I believe, interested in irrigation?"

"I reckon so."

"Right! At the Trailend Hotel in Rawhide I chanced to fall into conversation with one or two townsmen. Mr. Otto Piper, president of the bank, for one. Ah—I gather that you and this young lady have discussed some irrigation project in common—together, which, one might say, is not thought highly of by other ranchmen?"

"That's true, Mr. Berrens."

The fussy little man exhibited a row of gold teeth. "Sir, the company I represent, the Western Improvement Company, is a powerful, well-financed concern. We are, as a matter of fact, interested in securing a small, interesting place where we can experiment. I am not trying to sell you anything, sir, except possibly an idea."

"Don't think I can afford even an idea now, Mr. Berrens. My ranch house—"

## Do You Ever Wonder

Whether the "Pain" Remedy You Use is SAFE?

Ask Your Doctor and Find Out

Don't Entrust Your Own or Your Family's Well-Being to Unknown Preparations

THE person to ask whether the preparation you or your family are taking for the relief of headaches is SAFE to use regularly is your family doctor. Ask him particularly about "ASPIRIN."

He will tell you that before the discovery of "Aspirin" most "pain" remedies were advised against by physicians as bad for the stomach and often, to the heart. Which is food for thought if you seek quick, safe relief.

The fastest rate "Aspirin" among the fastest methods yet discovered for the relief of headaches and the pains of rheumatism, neuritis and neuralgia. And the experience of millions of users has proved it safe for the average person to use regularly. In your own interest remember this:

"Aspirin" Tablets are made in Canada. "Aspirin" is the registered trade-mark of the Bayer Company, Limited. Look for the name Bayer in the form of a cross on every tablet.

The bunkhouse became silent save for the muffled talk outside and the impatient stamp of horses' hoofs. Link scowled as he looked from Berrens to the girl, then into space. Discouragement welled in him at realization that all Boone County wanted to see the irrigation scheme fall—actually hoped it would fail. Someone wanted it to the extent of attempting to kill him. The loss of the plans, the destruction of his ranch house—all this was warning enough. Could a man succeed in the face of such odds?

Thinking of surrender was not a pleasing idea. Link Fleming could not recall when he had surrendered before. Nevertheless there was a difference between being courageous and foolhardy. He could sell out and go elsewhere, easily enough.

He gazed thoughtfully at Helen Hamilton, seated nearby, her graceful profile turned his way. Perhaps he would do her a service to scotch this scheme here and make her, to persist, plainly, meant trouble. His pulse pounded and new warmth went through him. He wanted to avoid making trouble for her, trouble of any kind.

"How much for the Star Loop, Mr. Berrens?"

He thought a moment. With his steers and equipment the price would run around ten thousand dollars. It was less than the place was worth, but that amount in cash meant settling all this. And that the more he pondered, the more deeply convinced he was. "Well, I'm not sure what stock to sell. Helen would be spared heightening the friction between herself and Buzz, in prison—between herself and Kilgo, who must have some grounds for expecting to win the girl."

Suddenly his mind was made up. "Mr. Berrens, I'll take."

"Wasn't the girl rose swiftly. Her eyes were bright and her face pale. "You shouldn't do it," she exclaimed indignantly. "Why, Link, what makes you talk so?"

"But we can't get in any work now till Spring. That means the cost goes up. And the more we ponder, the more deeply convinced he was. "Well, I'm not sure what stock to sell. Helen would be spared heightening the friction between herself and Buzz, in prison—between herself and Kilgo, who must have some grounds for expecting to win the girl."

Suddenly his mind was made up. "Mr. Berrens, I'll take."

"Wasn't the girl rose swiftly. Her eyes were bright and her face pale. "You shouldn't do it," she exclaimed indignantly. "Why, Link, what makes you talk so?"

### Will Erect Monument

Start Fund For Memorial in Montreal

Subscriptions from all branches of the Canadian Legion will be accepted toward erection of a monument in Mount Royal cemetery in Montreal over the grave of Sir Arthur Currie, commander-in-chief of the Canadian corps in France, it was announced.

Presiding over a meeting of the new Sir Arthur Currie branch, Canadian Legion, at which Brig-Gen. Alex Ross of Yorkton, Sask., was principal speaker, Mr. Justice C. G. Mackinnon stated plans for the monument were under way and had been approved by Lady Currie.

It was erroneous, Gen. Ross said, to think of the legion as entirely a "pension-getting" organization. A portion of its efforts was devoted to pension matters but there was much more than that. Poppy Day was more than a money-making affair.

"We regard it as a sacred thing," the legion undertook to be responsible for celebration of Armistice Day "which brings the whole country into one great family."

"Unemployment has laid its heavy hands upon the ex-serviceman to a far greater degree than ever before," Gen. Ross said. "As ex-servicemen who feel some responsibility to those who served with us we cannot lightly leave the unemployed to charity to eke out a miserable existence to the end of their days. . . that is why we have been so persistent in mobilizing to even greater efforts."

Advertising Must Be Creative

People Have To Be Convinced They Want Things

W. B. Keightley, speaking in Toronto before the annual meeting of the Canadian Chamber of Commerce on "How Advertising Can Develop Employment," said only "creative advertising" could have any stimulating effect to increase the ratio of employment.

As an example of the bearing of advertising on the prosperity of a country as a whole, he said, those countries most given to the advertising of products and services are the countries in which standards of living are the highest and in which there is steady progress in the use of modern devices.

An advertising campaign in the automotive industry was cited by Mr. Keightley as one of the recent campaigns which increased employment. He said in spite of large investment in sales, fewer people at work and lower earnings a very large number of the people do possess means of gratifying their desires, but fear and lack of confidence have caused them to reduce their normal spending.

"People must first be made to want things," he said.

Meteors Fall Frequently

But They Are Small Ones Seen Only With Telescope

Only once in 300 years does a meteor weighing 35 tons strike the earth, according to a report of the National Board of Fire Underwriters containing an assurance that there is such a thing as fire-retardant wood.

The wood treated by the Board was thoroughly and uniformly impregnated in pressure tanks containing ammonium salts, a fireproofing compound which, it is not perhaps generally known, has actually been procured in Canada for at least 20 years.

The treated wood is almost the same in appearance as ordinary wood but is a little heavier because of the salt content. It is easily toolled and takes varnish well.

The investigators of the Board tested the treated wood under conditions that sent untreated walls and floors roaring in flames while the treated wood did not burn at all but after a long period of exposure to the fierce heat was deeply charred. Not once, however, did the treated wood flame or aid the spread of combustion. The National Board of Fire Underwriters' final verdict was that the wood was non-inflammable.

Real Rainbow Plant

Aster in German Garden Shows Four Different Colors

A "rainbow" plant has been found in a Hamburg garden. It is an aster in which four different colors are shown by flowers on the same stem. One blossom is white with a yellow centre. The other is a mixture of blue and red. Botanists are of the opinion that this is due to an irregular division of cells in the plant's structure.

Praised For Rescue

U.S. Government Expresses Gratitude For Efforts Of British In Finding Ellsworth Expedition

"The sincere gratitude of the United States government for the splendid effort extended by the United Kingdom, Australian and New Zealand governments," was conveyed to Anthony Eden, British foreign secretary, by the United States chargé d'affaires for the reasons of the American explorer, Lincoln Ellsworth, and his Canadian pilot, Herbert Hollick-Kenyon, in Little America. The two aviator-explorers had been reported missing for weeks in the Antarctic wastes.

The embassy also praised "the heroic and effective rescue work" of those aboard the British government survey ship, Discovery II, which sailed Jan. 2 for Wellington, N.Z., to search for the airman.

"So you are building a new house, eh? How are you getting along with it?"

"Fine. I've got the roof and the mortgage on it, and I expect to have the furnace and the shovelful in before fall."

Mass production was a familiar idea to Roman industry, 2,000 years ago.

## Mr. CAFFEINE-NERVES gets thrown out

SMITH, YOU'RE GETTING TO BE THE WORST Grouch I KNOW! GET OVER IT OR LOOK FOR A NEW JOB.

DOESN'T THE OLD FOOL KNOW YOU HAVEN'T BEEN SLEEPING WELL FOR MONTHS? DON'T TAKE ANY OF HIS LIP!

HA-HA! YOUNG MAN, YOU CERTAINLY BAWLED YOUR BOSS OUT PLENTY! WHAT IF HE DID FIRE YOU? YOU SURE BURNED HIM UP!

SMITH—I'M YOUR FRIEND, I KNOW WHY YOU WERE FIRED. . . AND I THINK CAFFEINE-NERVES CAUSES YOUR BAD TEMPER, QUIET TEA AND COFFEE, DRINK POSTUM FOR 30 DAYS. . . AND THEN SEE ME ABOUT A NEW JOB.

YOU ASKED FOR A JOB. . . YOU DIDN'T CRACK POT CRITICISM.

DEAR—MY NERVES HAVE LOST ME MY JOB AND MADE ME UNHAPPY, BUT STARTING TONIGHT, I'M DRINKING POSTUM INSTEAD OF TEA AND COFFEE.

CURSES! WHEN I WAS FIRED, I WAS ALWAYS GETTING THROWN OUT ON MY EAR.

W HILE many people can safely drink tea and coffee, there are thousands and thousands who cannot. Maybe you are one without realizing it.

If, for any reason, you suspect that the drug caffeine found in both tea and coffee is undermining your nerves, your digestion, switch to POSTUM for 30 days and see how much better you feel. There is nothing in POSTUM that can possibly harm you.

FREE! Let us send you your first week's supply of POSTUM free. Write for it to Consumer Service Department, General Foods, Limited, Cobourg, Ontario.

Fire-Retarding Wood

YOU'VE LOST YOUR BAD TEMPER. . . YOU'VE STOPPED CRACKING POT CRITICISM. . . AND YOU'RE SLEEPING LIKE A TOP. YOU'LL DO BETTER WORK THAN EVER NOW, TOM.

Little Helps For This Week

The things which are impossible with men are possible with God. Luke 18:27.

Unless the Lord had been my help, my soul had almost dwelt in silence. Psalm 94:17.

When obstacles and trials seem like prison walls to be I do the little I can do. And leave the rest to Thee.

There are seasons when to be still demands immeasurably higher strength than to act. Composure is often the highest result of power. Think that it demands no power to calm the stormy elements of passion to throw off the load of dejection, to suppress every repining thought when the dearest hopes are withered, and to turn the wounded spirit from dangerous thoughts and wasting grief to the quiet discharge of ordinary duties. Is there no power put forth when a man, stripped of his property and of the fruits of a life's labor, quells discontent and gloomy forebodings, and serenely and patiently returns to the tasks which Providence assigns? The mind never puts forth greater power over itself than when it yields its interests to God.

Fulfilled Last Request

Ashes Of Engineer Scattered On Track In B.C.

Fulfilling a last request, the ashes of Anthony Livene Silvene, who for 39 years drove an engine on the Esquimalt and Nanaimo Railway, operated on Vancouver Island by the Canadian Pacific, were cast along the track he knew and loved so well. Engineer A. C. Wilson, friend of the late "Tony" Silvene and chairman of the Brotherhood of Locomotive Engineers performed the last rites in the company of officials and railwaymen near Silvene station at the summit of the spectacular Malahat Pass, 18 miles north of Victoria, B.C.

Will Preserve Voices

Radio Broadcasting Commission Has Archive Of Speeches

Neucleus of a museum of sounds, preserving the voices of great figures and audile records of events that cannot be re-enacted, has been formed by the Canadian Radio Broadcasting Commission.

The archives of speeches and other sounds so far contain six addresses of the late King George and a record made at the first birthday party of the Dionne quintuplets.

Takes Up Duties

The Duke of Gloucester, third son of the late King George has gone on duty with the 10th Hussars.

With the Duchess, he took up residence at the Royal Pavilion. He has also taken over an appointment in the Imperial Staff College. Gloucester's regular regiment is the 10th Hussars, on service abroad.

Few insects are capable of seeing farther than six feet.

## Mr. CAFFEINE-NERVES gets thrown out

SMITH, YOU'RE GETTING TO BE THE WORST Grouch I KNOW! GET OVER IT OR LOOK FOR A NEW JOB.

DOESN'T THE OLD FOOL KNOW YOU HAVEN'T BEEN SLEEPING WELL FOR MONTHS? DON'T TAKE ANY OF HIS LIP!

HA-HA! YOUNG MAN, YOU CERTAINLY BAWLED YOUR BOSS OUT PLENTY! WHAT IF HE DID FIRE YOU? YOU SURE BURNED HIM UP!

SMITH—I'M YOUR FRIEND, I KNOW WHY YOU WERE FIRED. . . AND I THINK CAFFEINE-NERVES CAUSES YOUR BAD TEMPER, QUIET TEA AND COFFEE, DRINK POSTUM FOR 30 DAYS. . . AND THEN SEE ME ABOUT A NEW JOB.

YOU ASKED FOR A JOB. . . YOU DIDN'T CRACK POT CRITICISM.

DEAR—MY NERVES HAVE LOST ME MY JOB AND MADE ME UNHAPPY, BUT STARTING TONIGHT, I'M DRINKING POSTUM INSTEAD OF TEA AND COFFEE.

CURSES! WHEN I WAS FIRED, I WAS ALWAYS GETTING THROWN OUT ON MY EAR.

W HILE many people can safely drink tea and coffee, there are thousands and thousands who cannot. Maybe you are one without realizing it.

If, for any reason, you suspect that the drug caffeine found in both tea and coffee is undermining your nerves, your digestion, switch to POSTUM for 30 days and see how much better you feel. There is nothing in POSTUM that can possibly harm you.

FREE! Let us send you your first week's supply of POSTUM free. Write for it to Consumer Service Department, General Foods, Limited, Cobourg, Ontario.

## Red Deer Wins First Round In Morgan Cup Play-offs

Red Deer took the first round in the Morgan Cup play-off by winning both games from Lacombe, the first at Red Deer Saturday night, 4-1, and the second at Lacombe on Monday night, 4-3, score for the round being 8-4.

Brooks scored the lone counter for Lacombe in the first game, on an assist by Wilson in the second period. Hayhoe scored from Cox in the first period. Sutherland scored for Red Deer in the second, on a double assist from Kennedy, from Gordon. Burns and Lee scored from Cox and Kennedy in the final frame. Clint Richardson of Red Deer was referee, and L. Galkins acted as judge of play. Penalties: Lacombe 3, Red Deer 5.

In the Monday night game here, the first period was scoreless but Lacombe appeared to have the most scoring chances but were unable to click. The play opened up in the second period and Burns and Lee scored on assists from Hayhoe. Galkins opened the scoring for Lacombe in the third period on a long shot from center ice, the puck rolling in without Thomas seeing it in time. Kennedy and Burns both broke away, when Lacombe was pressing. On assists by Gordon and Croft, they outgunned Todd and scored right in on top of him. Brooks intercepted a pass from Tomalty close in and scored and McGregor scored on a pass-out by Simituk.

Penalties: Lacombe, Simituk, Costigan, Brooks, McGregor, Wilson; Red Deer, Lee, Kennedy, Tomalty. Referee: John McDonald, Lacombe. Judge of play: Clint Richardson, Red Deer. Red Deer: Thomas, Kee, Croft, Tomalty; Lee, Kennedy, Burns; Hayhoe, Sutherland, Gordon. Lacombe: E. Todd, Brooks, Simituk, Penman, Costigan, Wilson; S. Todd, McGregor, Clift.

## Miriam Hopkins As Star of "Becky Sharp"

Miriam Hopkins' new starring picture, "Becky Sharp," the first feature film to be made in the newly perfected Technicolor by Pioneer Pictures, brings a cast of notable personalities, and will be shown at the Avalon Theatre tonight, Friday and Saturday.

Supporting the star in this picture of Thackeray's famous "Vanity Fair" character are Alan Mowbray as Rawdon Crawley; Sir Cedric Hardwicke brought London to play the Marquis of Steyne; Frances Dee as Amelia Sedley; Nigel Bruce, also from England, as Joseph Sedley; Alison Skipworth as Miss Crawley; Colin Tapley as Capt. Dobbin; May Beatty as Miss Briggs; G. P. Huntley, Jr., as George Osborne; George Hassell as Sir Pitt Crawley; Charles Richman as Lord Bagecroft; Billie Burke as Lady Bagecroft; William Faversham as the Duke of Wellington; and Doris Lloyd as the Duchess of Richmond. Rouben Mamoulian directed this remarkable galaxy of stage and screen favorites.

**OMISSION**  
The names of Mrs. Brooks, Mike Madden and Gus MacDonald were inadvertently omitted from the list of those attending the C.W.A. card party held at the Adelphi Hotel, February 25.

and HIS DANCE BAND

## Morningside

The many friends of Mr. John Carier, an old-timer of this district, will be glad to know that he has sufficiently recovered from the serious operation of having his leg amputated, in the University Hospital, Edmonton, to be able to visit with his brothers, C. and E. A., before returning to his home in the Peace River country. His brother Chester accompanied him as far as Edmonton.

A few of the Morningside ladies heaved the elements and drove out to Mrs. Ernie Ochs' home last Tuesday morning to an old-time quilting bee. It was 35 below but no one got cold and everyone was happy. A sumptuous dinner was served at noon and a nice lunch at 5:30. We are all wondering who will be the next to have a quilting party.

On account of the cold weather during February, there was no meeting of the W.M.S. Meeting will be

held at the home of Mrs. Sutherland on the third Thursday.

Bruce Stephens and John Hall were week-end visitors in Edmonton. Sympathy is extended to the Ward family through the death of Mrs. Ward, who passed away in Chilliwack, B.C., after a short illness.

## Bennett Addresses Boer War Veterans

OTTAWA.—Rt. Hon. R. B. Bennett Thursday night absented himself from the House of Commons to tell 100 members of the Ottawa South African Veterans' Association that "the pathway of Canada lies still within that League of Nations which we call the British Empire." The Conservative leader and former Prime Minister spoke at the association's banquet in observance of the 36th anniversary of the Battle of Paardeberg.

O. C. BARBER  
Manager of Ole Boode & Sons, Distributors for Central Alberta for Dodge and De Soto cars.

## His Wife, Daughter, Both 40 Years Old

RIMBEY.—T. B. Bunch, 59, became the father of his eighth child here last week, which is neither Dionnesque nor Millarvilleque, but it is unique nevertheless.

Mr. Bunch is a great-grandfather, which makes the new baby boy the uncle of Mr. Bunch's grandchild, who is 25 years of age. Mrs. Bunch, the mother of the strangely related latest arrival, is 40; she is Mr. Bunch's second wife. Mr. Bunch's married daughter is 40; said grandchild is 25 and his great-grandchild is two.

CANADIANS AND THEIR INDUSTRIES—AND THEIR BANK

## FISHERIES

JIM: "Bill, do you ever get tired of handling fish, fish, fish, all the time?"

BILL: "Yes, Jim, but it helps me to keep going when I think of the thousands of folks we're helping to feed!"

JIM: "That's right—fish is important and we're in a fine big business."

BILL: "Wasn't always big, though. The Chief was telling me the other day about how this company started. It seems funny, now. He and his partner figured they would do a whole lot better if they could keep their bait fresh for all-year fishing. They went to the Bank of Montreal and borrowed on their personal securities to build a cold storage plant. Of course, they soon paid back the loan, because a lot of folks saw what a good thing this business was going to be and bought stock in the company. Now look at the business!"

But the Chief admitted to me, confidentially, of course, that if it hadn't been for the Bank of Montreal, they couldn't have succeeded, and he said it was the same way with a lot of the other fishery concerns."

JIM: "A good story, Bill, and I know it's true, because the Chief told me, too. I reckon he tells 'most everybody, because he likes to talk about his Bank. It's my Bank, too. I have a savings account there."

BILL: "Have you, Jim? So have I."

Some of the Bank's services to the Fishing Industry and its employees: Business checking accounts; financing of shipments; commercial loans; trade and credit information; safekeeping of securities; savings accounts; money orders, travellers' cheques; banking by mail.

## LOW STEAMSHIP FARES FOR SPRING

For those who have been unable to secure accommodation on "Lady" cruise liners of the Canadian National Steamships so far this year, sailing from Boston to the various ports of the British West Indies, the company now announces that during the months of April and May special low steamship fares will be placed in effect for this spring period only, according to Victor E. Eke, passenger traffic manager of the company.

These reduced fares will apply in the service to Bermuda, the Leeward and Windward Islands, Barbados, Trinidad and British Guiana on the coast of South America, the 30-day round-trip cruises including in all 12 ports of call, sailings taking place from Boston April 11, April 25, May 9 and May 23.

Low fares will also be effective in the service to Jamaica, via Bermuda and the Bahama Islands, departing from Boston being on April 2 and April 16 on 24-day round-trip cruises, with the northbound trip terminating at Montreal. On this route during the month of May, when sailings will be made via the 1000-mile scenic St. Lawrence route, departures will take place from Montreal on April 29, May 13 and May 27. These sailings will provide an extended cruise of 25 days for the round trip from the inland metropolis to the southern terminus at Jamaica at the same fare, including a two-day voyage going and returning via the inland water route, with a daylight trip northbound between Quebec City and Montreal.

The customary honeymoon concession of 10 per cent off the steamship fare heretofore in effect during the spring, summer and fall months, will this season be limited to the months of April and May on all "Lady" liners of the company sailing from Boston and Montreal.

## Lost Amid Storm, Farmer Rescued

CASTOR—H. B. Windross, prominent farmer, 15 miles southwest of Castor, had a narrow escape from death by exposure last week. Leaving Castor about 3 p.m. Wednesday with a load of coal, he lost his way while crossing Sullivan Lake, and wandered around in the storm, with the temperature at 25 below zero, until located by a search party of neighbors at 3 a.m.

He was in a badly exhausted condition and suffered considerably from frost bites.

## NOTICE

There will be a meeting held in the New Pavilion, Exhibition Grounds, Lacombe, on Saturday, March 14, at 2 p.m., for the purpose of discussing as to the advisability of a Packing Plant being located in the Lacombe district. ## Lost-We-Forget Club Elect Officers For Year

The 15th annual meeting of the Lost-We-Forget Club was held recently in the Town Hall. There was a good attendance despite the cold weather.

Officers elected for the year 1936-1937 are as follows: Mrs. A. Lundie, honorary president; Mrs. W. H. Hutton, president; Mrs. E. H. Aldwinckle, vice-president; Mrs. W. Cram, secretary; Mrs. S. Edmunds, treasurer; Mrs. J. N. B. MacDonald, Mrs. C. Davidson and Mrs. D. Reeves, finance committee; Mr. J. Finlayson, auditor. Mrs. Edmunds, treasurer, read the financial report for the year, which had been audited by Mr. James Finlayson. The returns from the Poppy Campaign were allotted as follows: \$59.43 in payment for poppies; \$10 to the Colonel Belcher Hospital and \$10 to the University Hospital. From their Benevolent Fund they were able to donate to the Relief Fund of the town, to the Cancer Fund, to buy blankets, medicines, etc., for the newly and send wreaths, flowers, fruit, etc., to sick members and next of kin.

Their main fund, which can only be used for memorial purposes, went towards the upkeep of the park, the purchase of flags, programs, etc., for the services at the Cenotaph and cemetery. The Memorial Park, under the diligent care of Mr. N. Glasgow and Mr. Ramsay of the Experimental Station and others, was very beautiful last summer. The club regretted the passing of its honorary vice-president, Mrs. Simpson, early last year. The club is going to miss Mrs. C. B. Halpin, who has been a valued member of the club since its inception, and for the last six years vice-president.

## Laborite Rebuked, Cites Prince Trips

LONDON.—David Kirkwood, Labor M.P., was sharply criticized in the Commons Thursday night for citing the royal family during a debate on a supplementary estimate for the Labor ministry.

Pleading that vacations be allowed unemployed persons in training camps, Kirkwood referred to the travels a few years ago in South Africa and Argentina of a "wealthy young man" who at that time was the Prince of Wales.

Deputy chairman of the House interrupted him with the remark, "the honorable members must be aware that we never discuss the royal family in this House."

(Continued from Page One)

increased prices on liquors, is included in the estimated revenue.

A loss in revenue is anticipated from the change in the motor license year beginning from April first instead of January first. The tax on wild lands will be dropped.

The members of the legislature had a three-day holiday during the week, the House adjourning Tuesday afternoon for Ash Wednesday and continuing adjournment until Monday, March 2. Before the adjournment Premier Aberhart stated the legislature was well advanced with its work and therefore could spare time for the holiday. But Liberal Leader W. R. Howson and Conservative Leader D. M. Duggan, while agreeing to the holiday, disagreed with the statement that the work was well advanced. Mr. Howson said: "We have been here three weeks now and nothing has been done."

During the interval Major C. H. Douglas has continued to hold a central place in the speculative interest of the public. When he heard of the statement made in the House that he had been paid a sum exceeding \$600 by the Alberta government for his services in 1934-35, he promptly denied he had received any such sum, and later explained.

The Memorial Park, under the diligent care of Mr. N. Glasgow and Mr. Ramsay of the Experimental Station and others, was very beautiful last summer. The club regretted the passing of its honorary vice-president, Mrs. Simpson, early last year. The club is going to miss Mrs. C. B. Halpin, who has been a valued member of the club since its inception, and for the last six years vice-president.

tion of the province's accounts showed he was right to the extent of \$300 and a little more.

Then the London founder of Social Credit astonished the public, and evidently surprised nobody more than Premier Aberhart, by stating in an interview in London to a Canadian journalist that he was not engaged by the Alberta government "to prepare a plan of Social Credit for Alberta."

He insisted that no such contract is mentioned in the agreement of correspondence between himself and the provincial government. Comment on this situation would be useless as there is no way of checking up on the major's statement and there has been so much misrepresentation in connection with the situation between the London exponent of Social Credit and Premier Aberhart in the press that it will be wiser to hold comment until more is known.

Certainly Premier Aberhart expects Major Douglas to help in providing a plan of Social Credit for the province and he has been awaiting his arrival here for the purpose of consulting him on the Social Credit legislation. Premier Aberhart says he cannot understand Major Douglas' statement. "I should be clear that 'reconstruction adviser' might include in its meaning Social Credit adviser, whatever the Major or the newspapers say about it."

This week the most interesting of

all bills to be introduced by the government will be before the members for first reading at least—it is the Social Credit enabling bill, which was delayed in its journey to the assembly by the holiday last week. What treatment it will receive is of interest, but it may be affirmed that in the long run, whatever the opposition, it will be given third reading and passed into law.

The recall measure will also be made law following its regular course through the legislature. The education bill is said not to be as ready for presentation as the other two important bills. It is being given minor changes to meet suggestions by Social Credit members and to meet some objections voiced by its opponents as much as is consistent with its purpose. The main principle will be unchanged, it is learned.

Premier Aberhart has met with a difficulty in connection with his Sunday night broadcast of the addresses at the Edmonton Bible Conference. Complaints received by radio fans at the substitution of the conference broadcast for some regular Sunday night musical programs and the Canadian Press news bul-

letins' delay have caused the Radio Commission to notify the Premier that his broadcast cannot be given over C.J.C.A. at that hour after March 8.

There is a feeling in the mind of the Premier and other members of the government that politics enter into the ban to some extent, but whether this is or is not so hard to say. In any case the Bible Conference will have to be broadcast over another station if it is to be

heard between 8:00 and 9:30 o'clock Sunday evenings. What arrangements are to be made the Premier will himself announce over the air.

Owing to the serious seed situation that prevails and the warnings from your Agricultural Authorities and other sources on the necessity of Treating Your Seed this year with a treatment that will be Non-Injurious to Germination, I have secured the agency for the greatest Scientific Discovery for Seed Grain Treatment that has been found to date—LEYTOSAN—this is highly recommended by the different Departments of Agriculture. I will have a machine that will treat it quickly and cheaply. Write me if at all interested. J. H. LAMONT, Lacombe. m19p

Bacon shipments to the British Isles in 1935 totalled 125,000,000 pounds more than during 1934. Exports of pork in 1935 were more than double those of the previous year, the total amount being slightly over 7,000,000 pounds, as compared with 3,330,000 pounds in 1934.

### Bentley

**BENTLEY**—Miss Beryl Beddoes spent last week with her grandparents, Mr. and Mrs. Saint.

Mr. and Mrs. Holmes were Edmonton visitors last week.

Mr. Brown of Brown and Withers is down from Ban Accord for a short time at the Withersell home.

Dr. Henry was in Edmonton on Thursday last.

Charles Woolgar is visiting relatives at Alia.

Mrs. Kerr, who has been visiting her daughter, Mrs. Jack Day, and family, for the past six weeks, left for her home at Rolla, B.C., on Saturday last, via Edmonton, where she will visit a daughter before going on to Rolla.

Miss Ruth Wilts was down from Ponoka and spent Sunday at her home here.

Mrs. Hulton, Sr., who is spending this winter with her daughter, Mrs. R. C. Miles, celebrated her 82nd birthday on Feb. 27. She is enjoying good health considering her age and on her birthday was able, in company with Mrs. Miles and Mrs. Bay Hulton, to drive down and spend the afternoon with her old neighbor, Mrs. R. C. Chown.

Mrs. Jennie Freeman, a resident of Bentley since 1936, passed away at her home on Friday, Feb. 28, following an illness of but a few days. Her death was a great shock to her family and friends. She was 57. Jennie Young was born in Owen Sound, Ont., coming west to Killarney, Man., where she met James Freeman and they were married April 30, 1897. Nine years later they came to Edmonton, where they resided until settling on a homestead at Iola, northwest of Rimbey, in 1911, where they remained for 19 years, when on account of Mr. Freeman's health they came to Bentley. There are six sons, Alexander (Sandy), Sam, Bill, Jim, Ernest and Harry, all of Bentley district, and four daughters, Mrs. Hattie Hicklin, Ponoka; Mrs. Margaret Lohndorf, Wetaskiwin; Mrs. Mary Brockway, Cayley; and Mrs. Bessie Chown of Bentley. One daughter, Florence, passed away in 1929 at the age of 15. There are 22 grandchildren, five brothers are living and a sister, Mrs. Baxter, resides at Fort George, B.C. Of a capable, energetic temperament, Mrs. Freeman was a hard worker for any cause to which she lent her aid and held the respect of all who knew her. It was a queer coincidence that her death followed so closely that of her friend and near neighbor, Mrs. Louisa Hankins, of whom mention was made last week. Both ladies were near the same age and so accompanied each other to church, which they attended regularly. Their presence and help at the Ladies' Aid will also be missed. Funeral services were held at the United Church Sunday afternoon, Rev. J. McLennan officiating. Interment was made in Bentley cemetery.

Mr. John Holman of Sunset district was a visitor to Edmonton last week.

### Tobacco Production Reaches New High

Tobacco production in Canada reached an all-time high in 1935. The crop last year amounted to more than 55 million pounds and was 45 per cent greater than that of 1934. The tobacco growing industry in this country has made rapid strides over the past 15 years, especially in Ontario, where 85 per cent of the crop is produced. Other areas of production are located in Quebec and in British Columbia.

The quality of the 1935 crop is reported as excellent. "With an improvement in general economic conditions and a closer co-operation between growers and the purchasing companies in the marketing and production of fine-cured and Burley tobaccos, the price situation is much improved over 1933, particularly in Ontario," states the "Agricultural Situation and Outlook" for 1936. Authorities feel, however, that in the case of fine-cured tobacco, the probable demand in 1936 does not call for any increase in acreage over that of 1935. Although the acreage devoted to Burley in 1935 was not as large as anticipated, an increase of over 10 per cent in acreage of this type does not seem to be warranted for 1936. Other types of tobacco appear to have reached a satisfactory acreage, based on present consumption figures.

The only items of tobacco and tobacco products to show a decline in consumption in 1935 were plug and snuff. These commodities appear to be somewhat less in fashion for the present at least. With the sale of cigarettes from bond for consumption in 1934 was 14 per cent greater than in 1933 and in 1935 this figure was 21 per cent over that of 1933.

Exports of tobacco to the United Kingdom declined in 1935, but the outlook appears to be more encouraging. The British West Indies imported substantial quantities of Canadian dark tobacco; a sharp increase in 1935 being reported.

With a new bequest, Harvard will open a school for future offshooters. The first-year course, we hear, includes the dangling and kissing of the apathetic babe.

### NOTICE TO CREDITORS AND CLAIMANTS

IN THE MATTER of the Estate of WILLIAM H. WILKINS, late of near the Town of Lacombe, in the Province of Alberta, Farmer, deceased.

NOTICE is hereby given that all persons having claims upon the Estate of the above named William H. Wilkins, who died on or about the 21st day of January, A.D. 1936, are required to file with the undersigned as Solicitor for the Executor of the Estate of the said deceased, a full statement duly verified of their claims and of any securities held by them, and that after that date the Executor will proceed to distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which notice has been so filed or which have been brought to the knowledge of his Solicitor.

DATED this 26th day of February, A.D. 1936.  
J. S. McCORMICK,  
Lacombe, Alberta.  
Solicitor for the said Executor. m19p

### Progeny Test In Poultry Breeding

The progeny test, as carried out at Dominion Experimental Farms, is mentioned in the progress report just issued by the Division of Poultry Husbandry. Among a group of full-sister pullets some may be very good layers and others very poor, explains the report. The same is true of the transmitting ability of full brothers. Males cannot be judged, however, with any degree of certainty except by testing them through their daughters' production. This is known as the progeny test, and all males used for breeding on the Dominion Experimental Farms are subjected to this test. Thus the cockerels used for breeding are kept until the following breeding season and rated on their progeny according to: (1) fertility and hatchability; (2) range and adult mortality; (3) egg production up to January or February; (4) egg weight.

Males that give poor fertility and hatchability are not used a second

### Announcement

After an absence of eight years, Ole Boode, well-known old-time resident of the Lacombe district, returns to reopen his establishment on Dulmage Street, in the capacity of distributor for Central Alberta handling Dodge and De Soto cars, and complete line of Dodge trucks, products of the Chrysler Corporation, Limited.

The new models are now on display in the Salesroom, together with a number of Used Cars at bargain prices.

Mr. Boode, who for 29 years was a resident of Lacombe, looks forward to meeting old friends and acquaintances. Since leaving the district in 1928, he has been operating a garage at Red Deer, handling a complete line of Chrysler Products, including Plymouth, Chrysler, Dodge and De Soto cars, and Dodge and Fargo trucks.

The Lacombe establishment will be in the capable hands of Mr. O. C. Barber, who is well and favorably known throughout Alberta. For the past three years he has been sales manager for the Red Deer establishment.

Jack Crundell, with 20 years' experience, will be in charge of Service. He is well known throughout the district, and will have a shop well equipped to handle repairs on all makes of cars.  
O. C. BARBER, Manager.

Such males are culled after the first breeding season. The range and adult mortality of different males may run from 10 to 50 per cent, or more. Males whose progeny have a high death rate are not used for a second year, neither are their sons, even if the production of the surviving daughters is very high.
